## exp2: misclassification & function estimation (log output)

exp2: 1 x f shared curves, aligned, block structure; 2 seeds (N=15, M=3, p=24, r=3)

MEFIST0: maxiter=100, fast, GP-opt=FALSE

Summary over seeds:

|                             | metric           | multiTEMPED      | MEFIST0 |
|-----------------------------|------------------|------------------|---------|
| misclassification error     | 0.000 (+/-0.000) | 0.133 (+/-0.000) |         |
| function estimation ( cor ) | 0.999 (+/-0.000) | 0.873 (+/-0.000) |         |
| compute time (s)            |                  | 0.1              | 2.6     |
